

SPIRITS

→ The term 'spirit' is derived from the process of extracting what was held to be 'the soul' or 'the spirit' of wine when applying heat during the distillation process. The basic principal and process hasn't changed much during the centuries that have followed and today the market, production and consumption of spirits is truly global...

Spirits covers such a wide and varied market from the smoothness of five-star Cognacs to superb single malt Scotch that we have hand-picked a superb selection to give you the finest offerings and point of difference to your customers.
