

PRICE INCREASES

The below prices will take effect from the 14th July 2023

As you will have seen first-hand, 2022 was a year like no other on many levels. As a business, we experienced a high level of uncertainty in pricing stability from our entire supply chain.

Although we have no influence when brand owners or producers announce price increases, we have decided that rather than applying each increase individually as they occur, in 2023 we will now offer our customers some additional reassurance and only increase supplier prices should they occur, four times per year*.
